Exam Question 4

Spend about 5 to 7 minutes giving a review of Assignment 4. You are expected to talk about, and give a thorough explanation of:

1. general outline of the project,
2. how Assignment 4 relates to the syllabus**,
3. data, tooling, coding you and your group have used,
4. results of your (group's) work,
5. conclusions and perspectives on the assignment, concerning Business Intelligence.

** The syllabus is defined as:
- o slides from the course (see the weekly folders in Github)
- o reading material from the 100Page ML Book (see weekly, week40 in Github)
- o the 'lecture_notes' (under weekly folders in Github)
